GILLARD'S SHEEP DIP

This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Cirisco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

THE HASLAM PATENT.

The success of the Haslam patent for the exportation of meat is the most important problem for this country, and we are happy to say that by the mails in yesterday we have received the most favourable advices from London. The transport of fresh meat in a wholesome and palatable condition to Europe means more for the River Plate than the discovery of gold mines richer than those of Australia or California. Sheep that are dear to-day at 4s. by the cut will, when all our steamers are provided with the Haslam apparatus, be cheap at a sovereign each: and as for cows, instead of £2 10s. each they will be bought on the estancias at £20 a head.

With undisguised pleasure, therefore, we make room for the following important news which we received yesterday respecting the progressive march of this great invention. In former times it was necessary to build steamers specially adapted for carrying refrigerated meat, but with the Haslam invention all our steamers are suitable for the trade, and at the Haslam Foundry, Derby, they are now turning out these machines as fast as the works will allow. Our readers can imagine how rapidly this Haslam invention is coming into use by the following list of steamship companies that have adopted the invention for their ships:—

Orient Steam Navigatian Company, Limited.
Cunard Shipping Company, Limited.
The New Zealand Shipping Company, Limited.
McIlwraith, McEacharn & Company, Shipowners, London.
Messrs. Sloman & Co., Hamburg Line.
Brisbane Meat Preserving Company in Queensland.
The Meat Company at Dunedin in New Zealand.
East and West India Dock Company.
R. Campbell & Sons, London and New Zealand.
And other important Shipowners and Meat Companies.

Dry Air Refrigerators will preserve meat, fish, fruit, vegetables, and other perishable matter on land or during a long sea voyage, The Machines are made in various sizes and will deliver pure dry air (refrigerating with water at 90° Fahr.), at 40° to 80° below Zero direct from the Machine.

These Machines occupy a small amount of space, and are specially suited for working on board Ship They are simple in construction, all parts easy of access, and fitted with all recent improvements. Reports showing the highly satisfactory working of these Machines can be supplied.

Machines of special design are made for the Preservation of Food for passengers during long sea voyages.

Competent authorities pronounce this machine to be the best in the market; they can be fitted on board steam or sailing ships; no chemicals are used in connection with this machine.

The following ships have recently been fitted with machines delivering 40,000 cubic feet of air per hour at 40° to 80° below Zero:—

ss. Catania,
ss. Orient,
ss. Garonne,
ss. Catalonia,
The Clipper Mataura.

Other important vessels will shortly be fitted.

Machines of all sizes in progress to deliver from 7,000 to 60,000 cubic feet of air per hour.

Ships of all kinds inspected and reported upon with a view of adopting this machinery for refrigerating chambers; drawings prepared for cold rooms and distributing apparatus for circulating cold air on Haslam's improved system.

We hold for our next still further particulars too long for our columns to-day.

DEATH OF DARWIN.

The Grim Reaper is busy just now amongst the intellectually great. Darwin has speedily followed Longfellow to the tomb, Both leave voids that are hard to fill, but the passing away of the great naturalist is of more import to the world. In the River Plate his death will be much regretted, as there are some here who knew him when he came to this country half a century ago with Admiral Fitzroy in H.M.S. Beagle and made the first exploration on record of Patagonia; then a completely unknown part of this Continent. We take from 'The Rank and Talent of the Time' the following brief sketch of his career. However the scientific world may challenge the new and startling theories, the deceased naturalist has broached, he has left an indelible claim to a high niche in the temple of scientific fame:—

Darwin, Charles, M.A. Cantab, F.R.S., an eminent naturalist and author. When a very young man he accompanied Captain Fitzroy in his voyage round the world, in H.M.S. 'Beagle', during the years 1831—1836. His journal first appeared in 1839, as part of the general narrative of the voyage, and was subsequently re-published in a modified form under the title of 'Journal of Researches into the Geology and Natural History of the various Countries visited by H.M.S. 'Beagle''. In 1842, his work 'On the Structure and Distribution of Coral Reefs' appeared, which was followed by his 'Geological Observations on South America.' Since this period he has contributed many papers to the Geological Transactions, and to other scientific periodicals His chief contribution to Zoology is the 'Monograph on the Family Cirripedia', in two large volumes, in which he points out many curious and interesting particulars in relation to the history and economy of the barnacles and sea-acorns, and furnishes a minute description of every known species of the family. He has recently (November, 1859) published a work entitled, 'The Origin of Species by Means of Natural Selection; or, The Preservation of Favoured Races in the Struggle for Life.' This volume, as stated in the introduction, gives only in a condensed form the result of more than twenty years' study, and will hereafter be followed by a more detailed treatise on the same subject. Mr Darwin's writings exhibit close observation and untiring industry in collecting and arranging facts. Mr Darwin although he has adopted conclusions contested by other naturalists, has always been very cautious in arriving at results without sufficient data. He is a clear and elegant writer; and his works, independently of their scientific value, are written in a style well calculated to render them highly attractive.

ROSARIO.

(*From our own Correspondent*)

April 21s

The telegram from President Roca, mentioning his visit to the colony of Resistencia in the Chaco, has been published in all the papers, but little commented on. It is a pity General Roca's time was so limited. Personally, of course, he was unable to form an opinion from his own experience. What he says to the Minister of Interior in his telegram, we must take as being the ideas of his friends in Corrientes. Of course, the latter are more interested in 'Resistencia' than in Col. Mansilla's Formosa. The President is consequently made to say that the former offers more advantages and adaptabilities for the capital of the Chaco than the latter. Pres Roca did not visit Formosa, but he says, in the singular phraseology so much criticised by his political opponents: "I have it that Formosa does not possess the advantages of amplitude for agricultural operations." This may or may not be; but we are very certain that the president's views are not original, but adopted from those whose interest it is to advance Resistencia at the expense of Formosa, The former is just opposite Corrientes, and as the terminus of a road from Santiago and Tucuman it is preferable to the mouth of the Bermejo. But I cannot help thinking that Colonel Mansilla's choice of a site for the capital of the Chaco was a judicious one, and the President had better obtain the opinions of disinterested persons before he make up his mind to snuff out Formosa, which besides being a much more euphonious name than Resistencia, is admirably situated at the mouth of a river that must be made navigable some day. As for advantages, I am inclined to think both localities possess all that are necessary for their future prosperity.

The Birch Rod, crosswise, in a field gules, is the well-known coat of arms of Pedagogues all over the world; consequently at all meetings of the fraternity each member should be furnished with the immemorial Birch, as a proper emblem of his profession. I have no doubt that each member of the Educational Congress now sitting in Buenos Aires is properly armed with a brand new one. Unfortunately there are no naughty boys to be hoisted, but from what I read in the papers, the instrument of torture will not be idle. The pedagogues will soon be applying it to each other's backs, to the exultation of the juvenile generation of the Argentine Republic. Ultramontanes against liberals; birch against birch; sinews against sinews Blood will flow from noses in abundance, but I suppose the cause of education will be advanced. Prepare, boys for the grand day when your tyrants will belabour each other with the very instrument that is so well acquainted with your innocent backs. Think of the thrashing Nicholas Nickleby gave old Squeers. Even this will be nothing to the vengeance outraged schoolboy-hood will witness one of these days in the concert room of the Exposition. When Greek meets Greek, then comes the tug of war. When Pedagogue meets pedagogue the tug of words will soon degenerate into what the 'gauchos' poetically term a 'tole tole". Shout Boys, so mote it be!

correspondent who speake his mind freely on any subject without being biassed by party, political or social sympathies. Your creed is that 'everything is for the best'. How often have I been obliged to demur to your optimist views on many subjects? You now appear to be perfectly satisfied with the result of the President's visit to Corrientes. But think over it a minute. Think what a dangerous precedent Pres. Roca has created. He has virtually acknowledged the legality of the revolution, and has comforted the kicked-out Governor with a seat in the Senate, precisely as if there was no elective authority residing in the people, and as if the President of the Republic was as thoroughly autocratic as the Czar of Russia. We may not at present suffer from these informalities; but the time will come when these precedents may be fatal to the country. In the meantime I will only remark that President Roca is doing too much work for his salary.

We have at last a Municipality in Rosario that understands its business, and the town is feeling the results of the new regime. Thirty squares are to be paved with 'adoquin' blocks, and the old stone is being used for the now unpaved streets of the suburbs. Besides they are 'mending their ways' with great assiduity, obliging the citizens to perform their obligations. Rosario being placed on the top of a 'barranca' seventy feet above the level of the Parana, and with all its streets converging on the river, it is a costly and difficult operation to make easy communications between the town and the port. For a long time commerce was satisfied with one street to the Custom House; but now this is found to be quite inadequate, and four or five more are being finished, the one from the Plaza being completed, with excellent paving and an easy incline. The Corporation are now turning their attention to making a census of the Municipality, which is sadly required. I think in this we shall soon be in advance of Buenos Ayres. It will be interesting to know the exact number of inhabitants we have, their trades and means of living; the number of foreigners and children of foreigners; the progress of education and other interesting items.

It seems to have been decided that the Rosario terminus of the Santa Fe Western Railway will be at Mr Casado's wharves, about six or eight squares from the Custom House, down the river. I think this is a wise resolution, as it will save a large expenditure. As this is essentially a local line with the sole object of bringing to the market of Rosario the produce of the colonies to the south, there is really no reason for its junction with the Central Argentine. It is quite sufficient for the line to possess a junction with the wharves on the Parana. I am afraid after all, speaking of this projected line, Mr Casado will be obliged to seek foreign capital. Native capitalists are very shy of putting their money into railways.

I am thinking of visiting the Exhibition; shall I incur any danger of being hanged to the highest pinacle?

EDITOR'S TABLE.

The 'no steamer to-night' hitch came into play again yesterday, and the Guadiana's mails only come up this morning. If some effort be not made to cut short this 'no steamer to-night' nuisance, it will indubitably develop into 'no steamer to-night, to-morrow night, or the night after.'

All our native colleagues regret the death of Darwin and pay eloquent tributes to his memory. We publish a brief sketch of his career in another column.

Everybody spoke yesterday of the result of the short talk about the new Capital in the Provincial Deputies on Friday. The Lower House does not seem to be in the same John Gilpin frame of mind about 'La Plata' as the Senate, so there is, perhaps, a chance for the poor taxpayers yet.

The Pedagogues' Conference is a decided god-send to the printers of the city. All the speakers have their 'discursos' printed and neatly bound for distribution to the Press and their private friends. We feel much obliged for a copy of Mr Groussac's very eloquent address, which we received yesterday. We have also to acknowledge receipt of volume 1 of Dr Sastre's charming 'Tempe Argentina.'

People are getting seriously alarmed about the abominable state of the Riachuelo. Some epidemics rage even in the coldest weather. It is high time to seize this too dangerous bull by the horns. Better for the Corporation to shunt boulevards, embankments, new pavements, etc, and face the danger denounced by every paper in town.

It was as cold as Charity on Friday night at the Exhibition. Very few people there, and those who went had plenty of elbow room to examine everything, what they wont have to-day, if the weather prove fine.

There is a nice Paris Letter in our Supplement to-day. As a rule, our Paris Letters are always nice.

The news from Montevideo is that the Italian Government has ordered Commander Amezaga to pack up and continue his voyage round the world in the Caracciolo; he is loth to part from Volpi and Patroni however, and has asked leave to 'wait a little longer.' It is really about high time for the curtain to drop on Messrs Volpi and Patroni. No two foreigners have ever created a greater noise in this part of the world.

There is talk of the Chief of Police resigning. Mr Paz is a very good Chief, and we hope the rumour of his resignation is unfounded.

The decree approving the new Lottery will be out to-morrow.

An Italian tried to drown himself at the Catalinas Mole yesterday, declaring that he would not survive Darwin. A policeman, under the impression that Darwin was the man's mother-in-law, jumped in after him and persuaded him to survive.

The authorities at Rocha, B.O., are in an ineffable state of muddle as to what to do with an ingenious smuggler there who has built himself a house with the front door in Banda Oriental and the back ditto in Brazil. They have telegraphed to Montevideo for instructions. It seems a knotty case.

The *Times* correspondent in Servia says that the elevation of that Principality to the rank of a Kingdom means dire trouble in the East of Europe before long. Referring to the 'proclamation' of the new King he says:—There were two incidents connected with the proclamation to-day which have excited commeut—as 'évil omens'. As the artillery opened with the national salute and the bells began ringing merrily, a funeral procession left the Cathedral doors. Again, as the new King turned the corner to enter the hollow square, where the troops were to take the oath of allegiance, he met a second funeral 'cortege' coming into town, from a suburb, on its way to the cemetery. A few centuries ago these two 'omens' would have secured the postponement of the ceremonies. Did they portend a short life to the new kingdom? A third 'evil omen' occurred when his newly-fledged Majesty was returning to the Palace from the Cathedral. The axle of his carriage broke, and he and the Queen had a narrow shave of a roll in the mud.

Mr. Brauss has been appointed Roumanian Consul-General in this city. We saw a couple of Roumanian immigrants in Calle Victoria the other day. They wore high red fezes and sky-blue 'bombaches,' on extremely spindle-shanked legs—evidently not the men for either Galway, Gualeguaychu, or Guamini.

High Life has received a fearful shock by the announcement that the Lord Mayor will summarily close the Colon Theatre on the 25th. He is just the man to do it, if the shareholders show a too stiff upper lip in the pending dispute.

Let those who want to pick up a bargain, in the way of nice furniture, not forget that Mr. Lahusen's household gods are for sale by auction to-day at Flores.

We find in the Salto B.O. papers that the grass is growing in the Plaza Nueva there. We also note an unpleasant bobbery amongst the members of the French Mutual Protection Society of that town, caused by the President and Secretary of same having departed for the Buenos Aires Exhibition with the keys in their pockets, so that when a member died the other day, there was an insuperable hitch about the funeral arrangements. It is to be feared that the President and Secretary will enjoy their trip to Buenos Aires all the same, but when they get back, they may reasonably expect 'fits,' and many of them.

We feel much pleasure in stating that the Committee of the British Hospital paid immediate attention to Mr. de Bary's complaint in our issue of yesterday and sent to the Italian Hospital for the Irish girl, but she refused to move, saying she was very comfortable where she was.

We beg to present our compliments and thanks to Madame Gualtieri, the great actress, for her kind invitation for to-morrow evening, to discuss Hamlet, in which she will appear on Wednesday next as the Prince of Denmark. The appearance of such a gifted lady in such a role is a theatrical event of great pith and moment, and we look forward to it with keen interest.

A lot of mammoth potatoes, grown on limestone soil, is expected from Cordoba for the Exhibition. They are the size of zapallos.

The Apostolic Nuncio in Chile, Monsignor Mozini, is expected here this morning. He is on his way to Santiago, but wishes to see our Exhibition.

A poor little fellow of 8 years of age, while galloping on a message from his father in Calle Piedras on Friday, fell from his horse, the reins got round his legs, and he was dragged along the ground at full gallop for FIVE squares. When picked up he was dead and so frightfully mutilated that it was hard to recognize him.

The Provincial 'Direccion de Escuelas' declares, through its Secretary, that there is not a word of truth in all the terrible things our colleague the *Porvenir* of Cañuelas said about it the other day.

There was another case of 'stand and deliver!' at Alsina Bridge on Thursday evening, the victim being a 'licorista' who was returning home with empty bottles and full pockets. The highwaymen were 2, and having stabbed the man of drinks in the arm and relieved him of all his ready cash, they galloped off towards Flores and have not been heard of since.

Dr Luis Dominguez, the new Argentine Minister at Washington, has obtained leave to remain three months in Europe before assuming his post in the Capital of the Union.

A Billiard Tournament in the Exhibition is the latest 'novedad' in that quarter. We doubt if billiards are exactly the 'correct thing' in an Exhibition. Better draw the line this side of them. Next week some one may propose a little cock-fighting.

The Minister of the Interior has ordered the Engineers' Department to send one of its members to Chubut, to make surveys and plans for a dam on the river, a road from the colony to Cracker's Bay, a Town Hall, School, Church &c.

Mr Coquet has secured a concession from the Provincial Government for a tramway from this city to the new capital of the province La Plata. Now is the time for securing concessions by the pocketful The difficulty is what to ask for.

Messrs. L. Jacobsen and Co. have just printed a catalogue of books for general reference, which embraces the most popular works in the English language. They have also favored us with a selection, on a separate sheet, of books in stock, particularly suited for the general requirements of the Irish Catholic population. This list includes many devotional works of high standing as well as those for amusement, and a large number treating on farming industries. We strongly recommend our readers to apply as above for these catalogues.

We have received a catalogue of Messrs Schwarz's splendid show of machinery at the Exhibition, and will try to find time and space to publish a 'precis' of it.

The Health Committee of the Municipality have reported in favour of Mr Juan Lanus's proposed Model Market. They say it is a splendid affair, and compliment Mr L. on his not asking for any privileges.

We read in a colleague that a poet on the staff of a local foreign newspaper has been arrested for robbery. He is not 'of ours,' as we have not a single poet in our employ, The queerest part of the case is that the police Commissary has put in a claim for the delinquent's pantaloons, but cannot get them, as the poet is in the same predicament as our distinguished countryman Bryan O'Lynn, and has no breeches to wear'—except the pair on his legs.

Our doughty little colleague the *Porvenir* of Canuelas swears, on the sacred altar of the 'Patria', by the memory of the great San Martin, that there is a 'tornillo flojisimo' in the School Board of the province, and that a lot of money is flowing out of the public coffers for imaginary schools, salaries etc. We hope this is not true, but nobody would die of surprise if it was.

Mr Jose Paz, Argentine Charge d'Affaires in Paris, will leave to-morrow for Europe. It is almost needless to wish him a pleasant time of it: 'Paris is the city of pleasure 'par excellence.'

Horror of horrors! Oscar Wilde to the rescue! Crinoline is coming into fashion again in Europe. Better the most utterly utter limp beauties that aestheticism can turn out, than those cased in the iron hoops that used to make ballrooms an 'infierno' in our youthful days.

THE BRITISH HOSPITAL.

303 Reconquista
B. Aires, 22nd April, 1882

To the Editor of the *Standard*,
Sir

The letter in your issue of this morning signed by Mr T de Bary, has been a painful surprise to the Committee of management of the British Hospital.

On enquiry it has been found that Mr de Bary did present himself at the Hospital at about 9.30 p.m. on Thursday with a female servant who had damaged her skull, and that Dr Creagh, who had only a few hours previously taken temporary charge of the Establishment in the place of Dr Carlyon, who was on leave of absence granted by the Committee, refused to admit her owing to the fact that all the beds in the Institution were occupied.

The nurse who was in attendance when Mr de Bary arrived at the Hospital explained that it was impossible to make up a bed, and it was on these grounds that Dr Creagh was unable to grant admittance to the patient, offering however to treat her at whatever place Mr de Bary might leave her.

The Committee strongly condemn the action taken in the matter, although they do not blame Doctor Creagh, seeing that he could not be fully acquainted with the capacity and the regulations of the Institution, and had to be guided by what the nurse told him.

They very much regret that any applicant should be turned away, but they consider that the course adopted by Mr de Bary is hardly consistent with that spirit of charity to which he alludes in the concluding paragraph of his letter.

If Mr de Bary considered that he had met with a great neglect of duty on the part of the Staff of the Institution, and sought by appealing to the Press to secure the necessary redress, he might have considered that he would have attained his end by bringing the facts of the case to the notice of the Committees who are only too anxious that any complaint against the working or the Staff of the Institution should be reported to them in order that they may introduce the requisite reform.

I am, Sir,
Your obed. servant
On behalf of the Committee of management of the British Hospital.

National Bank Shares..	107½

The Bolsa was very crowded this morning, and there was hardly standing room at the ring, as usual the whole attention of the market is centred in National Bank Shares, and although brokers were shouting out Cedulas and gold for sale, very little was done in anything save in National Bank Shares. Some 65,000 pats gold were sold at par, and at the Provincial Bank they were changing gold for paper all day. The Bank Directors have as yet done nothing about the project to pay gold vencimientos in paper, but it is thought that next week it will be despatched.

The non arrival of the Guadiana's mails today was much complained of, every one expected the letters this morning, it proved a great disappointment.

In Cedulas Series A is more offered, but the price 101 rules much firmer than Series E at 84.

Some sales of the New Argentine 5 o/o stock have been effected at 66, and we hear there are buyers at 70 and none to be had.

Mr Melchor G Rom, who sails on Monday for London, took leave of his numerous friends today. We attach much importance to this gentleman's mission; he takes powers from some of our largest owners of lands to negotiate same in the London market, and from his great experience in land operations and high business qualifications we believe no more capable man could be sent to London with these affairs. The Argentine Government will avail of Mr Rom's presence in London to dispose of some of its splendid lands in the Misiones and Gran Chaco. We all wish Mr Rom the very best success, and hope to see him soon back, having sold everything.

Exchange was done on Paris to-day at 5 18 against 5.20 the rate two days ago, bills on London were done at 49½. The rates close at the end of the week much weaker.

Discount brokers were very busy all day, and a very large amount of money has been taken up at 12 o/o on Nat. Bank Shares valued at 90. Many of the discounters have turned to and bought Bank Shares instead of lending money on them.

The statutes of the B. Aires Loan and Trust Company have been approved, and in a few days this new bank will begin operations in this market.

The Commercial Bank, of Montevideo, has declared its dividend, but nothing as yet done about opening a branch in this city.

The English Bank of the River Plate will shortly open its branch in Rosario.

The Villarino was locked in at Patagones, owing to the state of the Rio Negro bar, he waves being mountains high there all the week; she was to try this morning to get away, if the state of the bar would allow.

The *Pampa* article on the Nat. Bank was much talked of on 'Change and approved of. Also the article in the *Nacion* on the unpaid Municipal Bonds, which is really a Municipal scandal, Congress voted money to pay the coupons yet the holders to the present have not received a paper dollar.

Wool rules up, and a lot of 800 ar. was sold in the South this morning at 11.5 per arroba, another lot sold at 100. There are no telegrams as a matter of course from Europe about the auction, but in this as in other cases, no news is good news.

The sales at the ring were as follows:—
Gold—
For April 30th 65,000 25.
Cedulas—
For cash A 16,250 at 101
For cash E 23,000 at 84½
For April 30th A 20,000 101
For April 30th E 10,000 at 84
Sales, 69,250.
Nat. Bank Shares—
For cash 200 share at 107½-½
For April 30th 3,600 shares 107½-107-106½ to 107½-½
For May 31st 700 shares 109½-½-½-110
Sales, 9,500.

The Bank share market this morning opened rather firmer, and prices advanced a little until it was rumoured that the Bohemian King would again put in an appearance this evening; he however did not wait for the afternoon but sold right off 2,000 shares at 106½ which were at once taken up by a leading native broker, the market then advanced and prices rose to 7½, but soon it slackened again and many sales were made at 107½ It was plain from the attitude of the market that nothing very important was being done by the great syndicate. They said on Change that the dispute between the members of the syndicate continues, one leader of the great syndicate is banging the market for a fall, whilst two others, equally influential parties, for the rise are buying for an advance; so far the first named has beaten his adversaries hollow, as they have bought largely at 110 and 109, but this great game cannot be played until the end of the month which is now near at hand; the general impression is that the market is over sold and that next week we are in for a new departure; we believe the business in National Bank shares this month will surpass in volume that of last November, the losers and gains will be tremendous, but the impression is that the Bolsa wins and outsiders lose.

Mr Cadmus, one of our leading barraqueros, took leave of his friends on Change; he sails on Monday for Europe. Mr John Krabbe was welcomed on Change, also Mr Hollway who has just arrived from England. There was great talk on Change about what appeared in the morning papers, the Minister of Foreign Affairs asking for information about Mr Braus, the new Roumanian Consul. Mr Braus is well and favourably known in this market, and connected with one of our leading houses.

It is supposed that there is again some hitch in the cable, as we have no news yet of the Antwerp wool auction. One of our principal export houses some days ago received the following message:—"Antwerp 10th April auction begins on 19th, from 16 to 17,000 bales will be offered". Yet although this house is always one of the best advised from Europe, to the present it has received no news of the auction, which took place 3 days ago; hence it is that they think the cable is interrupted.

The Port Captain yesterday stopped one of the Kepler passengers on the Mole head for debts due.

Next week there will be a great hegira for Europe; the German Lloyd steamer General Werder leaves on the 25th inst, and in her many of our principal wool buyers, estancieros and barraqueros—

Mr Koch and family
Mr Lahusen and family
Mr Bastin and family
Mr Bassus and family
Mr German Frers and 2 daughters
Mr Dr del Arca and family
Mr Juan C Mohr and family
Mr Edmund Napp and family

Mr Müller
Mr Simon Casares
Mr Born
Mr Wetzel
Mr L Linck and family
Miss Spangenberg, sister, and servant

and some more; altogether about 100 first class passengers.

Cargo for Bremen—
14,000 salted hides
1,600 bales wool
40 bales tobacco
10 boxes meat flour.

Kosmos str. Theben expected on the 28th instant leaves on the 28th for the Pacific loading in port about 600 half pipes tallow and 2,400 cases tallow and grease.

Mr Pasts and family leave in the following German steamer.

On 30th inst. Messrs Ebbeke & Diekelmann will sell by auction one of the finest sites for a town residence to be had in this market, at the corner of Calles Callao and Bella Vista, one of the highest and most commanding positions in B. Aires. For particulars see notice in another column.

General Villegas has received a telegram from Choel-Choel stating that the Indians who ran off with the agrimensor's horses and peones have been caught. Letters from Biedma say that this winter the Indians will give much trouble if General Villegas does not at once take proper steps and station troops at various exposed points of the river.

The new reglamento about cercos and veredas passed by the Municipality is a most important matter, it takes in an immense area, and will require for walls, &c. all the bricks that the Basques can make for the next two years.

At afterhours there was another tremendous push made by the bears, and the Bohemian King entered and sold about 4,000 shares at 107½-½-½ and 108. The market was, however, so dead against him that prices rose instead of falling, and spite of all his exertions the market closed buyers at 108 for end of month. The total amount sold at afterhours is estimated at 10,000 shares.

Mr Paats was enveloped in friends when he entered the hall, and congratulated on his recovery.

The Plata will be up in the morning; she brings 1,450 tons, 11 passengers, and dates to 26th ult.

Seven barracas in the South Market and two in the Plaza Once are now shut up and offering for rent. We hear that 12 of our barraqueros have closed up, and most of them go to Europe.

Mr Lahusen took leave of his friends on 'Change; he sails with family in the German steamer.

The Guadiana will be up to-morrow, and the mails come up to night in the Villa del Salto. It has been blowing a gale down there.

Viscount Maua is expected up to morrow from Montevideo.

The Cordovese Government has granted to M Dumesnil, the concessionaire of the Cordova Water Works, 300 leagues of land which will be offered for sale in this market, and proceeds deposited in Nat. Bank.

The Deputies, it seems, have split on the Capital question, which now goes over to the new legislature in May.

We heard on 'Change that the wool sold at 115, was refused on delivery and finally taken at 112.

Mr. Travers has effected the following cattle sales:—
1800 cows with 10 per cent novillos, Partido 9 de Julio at $230 al corte.
1000 cows al corte, Rauch 10 per cent, novillos at 225.

A large business in Rio Cuarto deliverable in Lincoln.

The Rubens is expected in Montevideo to-morrow.

At afterhours 20,000 pats cash sold at 2½ cents premium and more buyers at that rate.

The joint stock estancia announced this morning is in Italo and not Salto as incorrectly printed.

Another meeting has been held to amalgamate the Bolsa and Centro de Comercio, the matter will soon be arranged.

The payments on 'Change were not so heavy, and the produce business of the week shows a slight falling off.

Exchange this afternoon was reported somewhat firmer, and bills passed at 49½ and 5/10 on Antwerp; exchange on Rio at 11.3-00, something passed; the rate in Rio is we hear 21½.

The Ville de Buenos Aires took for Havre—
2400 bales wool
375 bags maize
besides a good passenger list.

The Olaf took for Bremen—
1251 bales wool
1000 dry hides
1559 bags maize
572 bags lino
418 bales wool

The London papers of 2nd March publish about the question of the Argentine Treasury Bills and their proposed amortization by drawing, and on 24th ult. a meeting was to be held at the Cannon Street Hotel of the holders of these bills to protest against the conduct of the Minister. The London Stock Exchange it seems has directed its Secretary to ask information of the National Government respecting the matter, and they say in London that any departure by the Government from the law creating the debt will affect the position of Argentine securities and their quotations on the stock exchange.

The National Minister of Hacienda has ordered the payment of close on 300,000 pats to the Eastern Argentine Railway for the guarantee due for accounts furnished up to date.

We take the following interesting figures from Mr H Altgelt's *Weekly Review of Agricultural Produce*—

"Arrivals of the week—

Wheat...	632,843 kilos.
Flour ...	84,649
Maize ...	521,504
Flax	162,225
Hay	1,398 bales.

Besides there have arrived 2,410 bags of wheat, and 4,993 bags of maize, the weight of which has not yet been determined.

"Wheat—

"During this week the market became more animated than since the beginning of year. The small arrivals met with a quick sale and some lots sold with a rise of from $5 to 10 per fanega. It is doubtful whether this rise will maintain itself. The principal operations have been done in Azul wheat, which is of a very uneven class. The wheat from Sta. Fe is inferior in grain and colour. Prices for Azul wheat ranged as follows:—superior $158, good $130 to 133 and from $147 to 156. Few lots sold in Rosario, one inferior lot fetched $145; Costa of poor quality $135.

"Flour—

"The rise in this article keeps pace with wheat and may be quoted at from $1 to 2 higher. The old stock is now sold out to two city millers. In Sta. Fe prices continue firm. Market closes brisk.

"Maize—

"The fall in price of this article in the Brazilian markets has caused a number of buyers to withdraw for the present, and so cause a calm in the market. Notwithstanding this there are parties interested in buying yellow classes for May at former prices.

"Linseed—

"Falling; little done."

PARIS LETTER.

(From our own Correspondent)

March, 24th

Those interested in commercial treaties must not be too sanguine at the efforts of the resurrectionists to re-open official negotiations. The difficulty has long passed out of the domain of political economists and business men; it is now a matter of parliamentary parties, where the protectionists have the whip hand. To supersede the specific, for the 'ad valorem,' duties, means bringing in a bill, carrying it through both houses, and opening again the debate between free trade and protection. The country remains profoundly indifferent to the whole subject; no cabinet would take up the question by staking its existence on the issue, and for the best of reasons, there is no majority in the Chambers to back them, even were ministers not divided. Chambers of Commerce at home or abroad can do nothing fresh. The French Legislature will not re-open the subject of the general tariff. Gambetta, in his hey-day shirked the adventure, and the amiable and 'canny' de Freycinet, has not the slightest intention to run his head against a wall.

I may dispose of political matters by alluding to the commencement of hostilities between followers of Gambetta and the coalesced republicans that form the ephemeral majority of the Government, The radicals prefer working with the royalists rather than the Gambettists; the battle will take place over the budget, and if that elegant construction be not voted on the lines laid down by Leon Say, the structure in falling will demalish the ministry, a fate in which not a particle of public anxiety is displayed, still less as to the difficulty of finding their successors. As usual we will drift into some ministry, for France, like the cats, always comes on her feet.

Attention is drawn to the fact, that while England is solemnly engaged thanking Providence for preserving the life of her Queen, in France the prevailing idea or movement is to eliminate religion from mundane affairs. Contemporaneously with this is an increase in obscene literature. It is becoming fashionable in courts of justice for jurymen and witnesses to declare themselves more than offended, when asked to take their oaths to tell the truth. It seems they will pledge their honor and conscience—two conditions they think sufficiently binding.

Thursday last was mid-Leat, and the Carnival was resuscitated for twenty-four hours, when saints and sinners enjoyed the loveliest of spring days, sunshine, flowers, new life. On the Boulevards, the crowds was impenetrable. There was a very extensive hiring of fancy dresses for the day: it is a strange caprice that ot people to disguise themselves and indulge in antics gratuitously. However, there was not much evidence of originality in the make ups. The Laundry women, who claim the day as their own, just as the butchers do Good Friday, mustered very strong and had escorts composed of typical representatives of ancient and modern manners, styles, and customs. The 'queens' of the vast laundries were on the whole not bad-looking; but then there was neither frost, sleet, nor rain to spoil their toilettes, pinch their features, or sour their tempers; the brass bands invariably played independent of all rules of harmony: Kroumirs were 'done' well: a parody was effected of the failure of the Union Generale Bank, consisting of the directors being 'waked' in a pillory. The isolated attempts to represent monks etc. met with no applause. The evening balls were very numerous.

It is impossible apparently that we can exist without an exhibition of some sort. An unusually useful one will open in Paris on the first of August and will close on the 15th November: it is the second of the Technological Exhibitions that a group of artists and mantacturers started in 1880, commencing with metals. The present exhibits will be limited to wood, tissues and paper, and all that appertains to these industries from raw materials, tools and machinery, up to the finished products. Those 'industriels' who have obtained gold medals at any exhibition will not be allowed to compete. Under the sections of books, illustrations, wallpapers, photography &c. a very extensive display may be expected.

The Communists have made extensive preparations to fête the eleventh anniversary of their defeat. The socialists and free-thinkers make common cause with the 'patriots,' who for a time left their country for their country's good. At all these meetings great efforts are ever made to secure the attendance of children, so the spirit of revenge is not likely to die out. Deputies of the extreme radical class consider it an honour to attend where every emblem is rank sedition.

The police want a real princess, who has been faring sumptuously every day byshop-lifting, unaccompanied by the attenuating circumstances of kleptomania;an individual of the same school, sharing in the general belief that taking umbrellas owned by others does not come with in the Decalogue,has derived a snug income by not only abstracting umbrellas from shops, but passing next day to demand his money back as the article did not please, and the ticket of the price was gummed on the handle. At Belleville a husband and wife had a dispute during dinner; she seized her baby in its cot, took it in her arms, and rushing to the window threw herself out. Falling on a tree, a branch pierced her body like a bayonet; she was dead, but the infant was unhurt.

France appears to have been brought to a full stop in her study of the question what to do with her habitual criminals. They have increased, are increasing, and ought to be diminished. Unable to effectually dispose of malefactors that society has rejected, the authorities have no prison accommodation, so only the prisoners of the worst character are retained. The penitentiary establishments at Cayenne and New Caledonia are viewed as mere abysses to swallow up money. The commission occupied with the study of this important question incline to keep the gaol birds in home gaols. The majority of the criminals, being lazy, cynical, and robust, would be improved by the occasional use of the cat.

'Une Aventure de Garrick,' is the name of a comedy, in verse, by Messrs Carré and Ferney, and represented at the Odeon. Garrick was a great admirer of Moliere, but did not like the French theatre in general, and its actors in particular, of the time of Louis XV. Garrick is in a post-chaise 'en route' for Versailles, the postillion is thrown, and is brought into a wayside inn and cured. Now the postillion, the inn-keeper and his wife, are all artistes disguised, having for aim to prove to Garrick how naturally they can play their parts. The real owner of the hotel believes the new comers are assassins, who demand only to murder an innocent traveller, and warns Garrick accordingly. But Garrick shrewdly suspects they are actors, as indeed they were, and in his turn assumes the 'roles' of a lover and a drunken man. Mutual explanattons take place, and the deceptions are applauded on both sides. The piece is very ingenious and amusing.

A marriage is on the point of being celebrated between Mdlle. Fournier and M, d'Ansac: its origin is a little romantic: The young lady and her mother were entering a railway carriage, when M. d'Ansac shut the door, previously extricating the young lady's dress: 'that's a real gentleman,' said she to her mamma in English; he understood, and took a seat in the same compartment, where the marriage may be said to have been arranged.

In the vote for the carrying of the obligatory secular scheme of public education, a legislator, Monsieur Dieu, was absent on the division. 'Quite apropos' observe the friends of religious instruction.

Dying for, and with the flag: a journalist lately started a newspaper in Rome; it did not suceded, so he committed suicide in consequence.

A Moor's head on a white ground is the flag of Corsican independence: when M. Peraldi was elected deputy the other day, his constituents presented him with such a 'drapeau.'

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION.—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
